

LABORATORY UPDATE

October 15th, 2018

Introducing our New AMPIPROBE® Ureaplasma/Mycoplasma, PCR

Dear Physicians and Staff,

Effective October 15th, Enzo Clinical Laboratory is offering the AMPIPROBE® Ureaplasma/Mycoplasma, PCR test, which allows for the detection of 3 common pathogens associated with women's health and sexually transmitted diseases on a single APTIMA® swab.

Test Name	Test Code	Specimen Requirements	Turnaround Time
Ureaplasma/Mycoplasma, PCR (AMPIPROBE®)	8799	Aptima® Vaginal Swab	2-4 days
<i>Ureaplasma spp.</i>			
<i>Mycoplasma genitalium</i>			
<i>Mycoplasma hominis</i>			

The new AMPIPROBE® Ureaplasma/Mycoplasma, PCR test is a highly sensitive and specific multiplex nucleic acid amplification test for the qualitative detection of *Ureaplasma* species, *Mycoplasma genitalium* and *Mycoplasma hominis*. The intended use is as an aid in diagnosis of vaginitis.

We appreciate the continued opportunity to serve you and your patients and welcome any questions or concerns you may have. You can reach us at 631-755-5500 or talk to your ECL sales or service representative for more information.

Sincerely,

Dieter Schapfel, MD
Medical Director
